EDUCATION

M.Sc. Computer Science
M.B. Khalsa College, Indore
Percentage: 67% | Completed: 2025

B.Sc. (PCM)
Shri Krishna PG College, Singhana
Percentage: 70% | Completed: 2023

12th (Science)
Cambridge Kids Garden Public Sr. Sec. School, Simani Buhana
Percentage: 80% | Year: 2020

10th
Cambridge Kids Garden Public Sr. Sec. School, Simani Buhana
Percentage: 78% | Year: 2018

PROFESSIONAL SUMMARY

Motivated M.Sc. Computer Science graduate with hands-on experience as a Full Stack Developer Intern. Skilled in building dynamic web applications using Django, MySQL, HTML, CSS, JavaScript, and React.js. Strong understanding of REST API integration and delivering scalable, user-friendly solutions.

EXPERIENCE

IT Support Specialist — Online Exam Centre, Indore

Duration: 2 Years

- Managed hardware networking, system administration, and IT infrastructure for smooth online examination operations.
- Installed, configured, and maintained computer systems, printers, routers, switches, and network cabling.
- Provided technical support to users, resolved hardware/software issues, and ensured 99% system uptime during critical exam sessions.
- Coordinated with exam coordinators to set up secure network environments and troubleshoot real-time connectivity problems.

Full Stack Developer Intern — Kwikster Innovative Pvt. Ltd., Jaipur

Duration: 3 Months

- Developed full-stack web applications using Django, MySQL, HTML, CSS, and JavaScript.
- Integrated REST APIs with frontend to ensure seamless data flow and real-time updates.
- Collaborated with team to improve UI responsiveness and overall performance.
- Participated in code reviews and followed agile development practices.

PROJECTS

Django Blog (with REST API) — Django · REST API · HTML · CSS · JS · MySQL

- Developed a blog application where users can view blogs without authentication.
- Authenticated users can create, read, vote, and manage blogs and categories.
- Authors have permission to edit and delete their own blogs.
- Implemented authentication, authorization, and role-based permissions using Django REST API.
- Used MySQL as database with HTML, CSS, JavaScript for frontend.

Hospital Management System — Django · MySQL · HTML · CSS · JavaScript

- Built a complete hospital management system using Django framework and MySQL database.
- Superadmin can manage hospitals (add/delete).
- Hospitals can manage doctors, patients, generate bills, and handle admissions.
- Doctors can manage appointments, prescriptions, visits, and billing.
- Patients can book appointments and receive bills & prescription PDFs via email.
- Implemented secure role-based authentication with separate dashboards using HTML, CSS, JavaScript.

INTERESTS & ADDITIONAL

- 📌 Building real-world web applications using Django & React
- 📌 Learning new technologies and improving coding skills
- 📌 Problem solving and debugging
- 📌 Cricket, reading tech blogs
